Gracie Abrams - Mess it Up

```
Do
  Opened two double doors
                                    Lam
Typical, pretty sure I could grow up

Probably chemical
                                  Fa
I took up walking to turn it all off

Doesn't feel bearable
                                           Do
Guess I thought when I left it would all stop

Hmmm, it would all stop

      Lam          Fa           Do
Did I fall out of line when I called you?
       Lam            Fa              Do
When I told you "I'm fine" you were lied to
          Lam           Fa          Do             Sol/Si
How could I think that all that I gave you was enough?
                    N.C.
'Cause every time I get too close I just go mess it up

Do
  Funny that didn't work (didn't work)
                                  Lam
I could be anywhere, I'm on your block

Cynical (cynical), terrible (terrible)
                                 Fa
Kicking myself with my gut in a knot

'Cause I heard that you're (heard that you're), happier (happier)
                                              Do
Hope that you're sleeping well knowing I'm not

I'm doing too much, hmm-hmm-hmm hmmmm-hmm

      Lam                         Fa                              Do
Did I fall (did I fall) out of line (out of line) when I called you? (ah-ah-ah-
ahhh-ah)
       Lam                            Fa                                   Do
When I told (when I told) you "I'm fine" (you "I'm fine") you were lied to (I
told you
I'm lying)
          Lam           Fa          Do             Sol/Si
How could I think that all that I gave you was enough?
                    N.C.
'Cause every time I get too close I just go mess it up

Lam                           Fa
I keep thinking maybe if you let me back in
Do
We can make it better, breakin' every habit
Lam                             Fa
Pull myself together, you could watch it happen
Do
Let it happen, let it happen

Lam                           Fa
I keep thinking maybe if you let me back in
Do
We can make it better, breakin' every habit
```

```
Lam                              Fa
Pull myself together, you could watch it happen
Do
Let it happen, let it happen

       Lam                            Fa
(Did I fall ---------------- out of line)
       I keep thinking maybe if you let me back in
        Do
(When I called you?)
        We can make it better, breakin' every habit
        Lam                             Fa
(When I told ----------------- you "I'm fine")
        Pull myself together, you could watch it happen
          Do
(You were lied to, ---- lied to)
          Let it happen, ------- let it happen

           Lam                            Fa
(How could I --------------- think that all)
           I keep thinking maybe if you let me back in
        Do
(That I gave you ------------- was --- enough?)
        We can make it better, breakin' every habit
                     Lam                                 Fa
('Cause every time I get -- too -- close - I ------- just --- go --- mess it up)
                     Pull myself together, you could watch it happen
Do              N.C.
Let it happen, let it happen
```
