Gracie Abrams - The Bottom

```
Sib  Fa  Do  Fa

  Sib                    Fa
I told you I was down bad
    Do                      Lam
You hate to see me like that
  Sib                         Fa
I don't know how you look past
   Do                    Lam
My stupid fucking setbacks

Sib          Fa             Do
   When you opened up the door
Lam                                              Sib
You let me in when you should have your guard up
       Fa                Do
What a painful back and forth, oh

                Sib             Fa
It's hard to ignore all of my problems
        Do               Lam
Gonna regret being too honest
           Sib                      Fa
Calling it love, but this isn't falling
          Do                             Lam
I'm gonna drag you right down to the bottom
             Sib
Cause I'm no good
             Fa
You could do better
                Do
You should walk out
            Lam
It's now or never
           Sib                    Fa
I took the most that you could offer
          Do                             Lam
I'm gonna drag you right down to the bottom

Sib                    Fa
Told you I was down bad
Do                        Lam
You could never fix that
          Sib                Fa
Cause I'm happier when I'm sad
   Do                         Lam
So leave and never come back

Sib          Fa             Do
   When you opened up the door
Lam                                              Sib
You let me in when you should have your guard up
       Fa                Do
What a painful back and forth, oh

                Sib             Fa
It's hard to ignore all of my problems
        Do               Lam
Gonna regret being too honest
           Sib                      Fa
Calling it love, but this isn't falling
          Do                             Lam
I'm gonna drag you right down to the bottom
             Sib
Cause I'm no good

N.C.
Watch me drag you down
N.C.
No saving you now
N.C.
Watch me drag you down
N.C
There's no getting out
