```

```
Mi                  Do#m7
 I'm not a perfect person
                                          Mi
There are many things I wish I didn't do
                 Do#m7
But I continue learning
                                        La
I never meant to do those things to you
                                  Si
and so I have to say before I go
                           Mi
that I just want you to know

                           Do#m
I've found a reason for me
                           La9
to change who I used to be
                         Si
a reason to start over new
                   Mi
and the reason is you

                   Do#m7
I'm sorry that I hurt you
                                         Mi
It's something I must live with everyday
                           Do#m7
and all the pain I put you through
                                    La
I wish that I could take it all away
                                      Si
and be the one who catches all your tears
                          Mi
thats why I need you to hear

                           Do#m
I've found a reason for me
                           La9
to change who I used to be
                         Si
a reason to start over new
                   Re9
and the reason is you
                   Mi
and the reason is you
                   Re9
and the reason is you
                   Mi
and the reason is you

                    Do#m7
I'm not a perfect person
                                      La
I never meant to do those things to you
                                  Si
And so I have to say before I go
```

```
                            Mi
that I just want you to know

                            Do#m
I've found a reason for me
                            La9
to change who I used to be
                          Si
a reason to start over new
                    Mi
and the reason is you
                            Do#m
I've found a reason to show
                            La
a side of me you didn't know
                            Si
a reason for all that I do
                    Mi
and the reason is you
```
