Asaf Avidan - My old pain

```
Sim

Re      Sim     Re
I'm in love again
        Sim
With my old pain
        Sol
With my old pain
Re       Sim       Re
Save me from the same
          Sim
Perpetual game
      Sol
Of my own name

Re              La               Sim            Sol
Every time the Weeping Willow dances in the breeze
Re             La                Sim         La
Please remind everybody that I smile with ease
        Sol     La
Not too long ago
          Sim    Re   Sol
So honey, don't let go (ooh)
   Sim   Re   Sol       La       Sim
Of what you know of me (ooh)

Re    Sim         Re
I am dressed to kill
      Sim
In my old skin
      Sol
In my old skin
Re       Sim       Re
Save me from the same
           Sim
Primordial sin
       Sol
That's deep within

Re              La                   Sim             Sol
Every time I'm hungry, waves come dancing in the sand
Re                  La               Sim           La
Please remind this broken shell it used to be a man
        Sol    La
Not too long ago
          Sim    Re   Sol
So honey, don't let go (ooh)
   Sim   Re   Sol       La
Of what you know of me (ooh)

     Sol           La             Re            Sol
Take heed of the ocean and the scent of the storm
    Sim           La             Sol             La
And whisper the West Wind and guide me back home

Sim
Sim Sol Re La
Sim Re La Sim

Re      Sim   Re
I'm in love again
        Sim
With my old pain
        Sol
With my old pain
```
