Heart in a cage - The Strokes

```
Dom       Lab  Fam  Dom

        Dom
Well, I don't feel better
      Lab         Mib
when I'm fucking around
      Dom
And I don't write better
       Lab            Mib
when I'm stuck in the ground
         Dom
So don't teach me a lesson
        Lab         Mib
'cause I've already learned
          Dom
Yeah, the sun will be shining
     Lab          Mib
and my children will burn
    Dom       Lab       Mib
Oh, the heart beats in its cage

Dom         Lab  Fam  Dom

        Dom
I don't want what you want,
    Lab               Mib
I don't feel what you feel
         Dom
See, I'm stuck in a city
     Lab          Mib
but I belong in a field
            Dom
Yeah, we got left, left, left, left,
Lab         Mib
left, left, left
         Dom
Now it's three in the morning
     Lab           Mib
and you're eating alone
    Dom       Lab       Mib
Oh, the heart beats in its cage

Dom                      Lam7      Solm
All our friends, they're laughing at us
Dom              Lam7      Solm
All of those you loved, you mistrust
Dom               Lam7       Solm
Help me, I'm just not quite myself
Dom                  Lam7    Solm
Look around, there's no one else left

  Dom
I went to the concert
     Lab                 Mib
and I fought through the crowd
        Dom
Guess I got too excited
      Lab                Mib
when I thought you were around
            Dom
Oh, he gets left, left, left, left,
Lab         Mib
left, left, left
        Dom
And I'm sorry you were thinking
```

```
         Lab         Mib
I would steal your fire
         Dom   Lab           Mib
Oh, the heart beats in its cage
          Dom   Lab         Mib
Yes, the heart beats in its cage...

Dom

         Dom   Lab         Mib
And the heart beats in its cage
```
