A million love songs - Take That

```
Do
Put your head against my life
 Rem
What do you hear?
  Sol
A million words just trying to make
    Fa                Do
The love song of the year
Do
Close your eyes but don't forget
Rem
What you have heard
Sol
A man who's trying to say three words
    Fa                  Do
The words that make me scared
   Do      Rem               Fa
A million love songs later
               Do              Mim
And here I am trying to tell you that
   Lam
 I care
           Rem                Fa
A million love songs later
           Do          Lam
And here I am, here I am
         Rem               Fa
Million love songs later
           Do
And here I am
Do
Looking to the future now
Rem
This is what I see
Sol
Million chances pass me by
Fa                  Do
Million chances to hold you
Do
Take me back, take me back
   Rem
To where I used to be
    Sol
And hide away from all my truths
Fa                    Do
Through the light I see
   Do       Rem              Fa
A million love songs later
               Do             Mim        Lam
And here I am trying to tell you that  I care
         Rem                Fa
Million love songs later
       Do                  Lam
Here I am, just for you, girl
        Rem                Fa
Million love songs later
       Do
Here I am
  Do                    Do
I feel for you baby, I feel for you baby
          Rem                Fa
A million love songs later
                    Do
And here I, here I am
```
