Get ready for it - Take That

```
                  Fa Do Lam Sol
Get ready for it
                  Fa Do Lam Sol Do
Get ready for it

Do              Fa              Do
You said, whatever you put out there,
     Fa             Do
Whatever you put out there
     Lam          Sol
is gonna come back
Do               Fa              Do
You said, whenever you are ready,
     Fa              Do
Whenever you are ready
     Lam           Sol
Just let it all out
Do                    Fa       Do
I know, cause the enemy inside me,
             Fa       Do
Cause the enemy inside me
      Lam         Sol
Is holding me back
Do                          Fa                Do
But we know, there's something in the silence,
           Fa                Do
There's something in the silence

                  Fa Do Lam Sol
Get ready for it
                  Fa Do Lam Sol
Get ready for it
                         Fa                   Do
You said there's only one place left to find
                   Lam               Sol
Together we can save the world tonight
                   Do
Get ready for it

Do                 Fa            Do
You said, every life is a lesson,
           Fa             Do
Are you a fool or a kingsman
       Lam     Sol
Cause only you know
Do                       Fa
Hold on, cause the volume is rising,
           Fa          Do
Yeah the volume is rising
          Lam          Sol
So you better hold on
Fa               Do
The night is young
            Lam                Sol
Until it's over, until it's over
                 Fa
The night is young
                 Do
The night is ours,
         Lam                Sol
Until tomorrow, until tomorrow

Sol                Fa Do Lam Sol
