Giants - Take That

```
Rem  Sib  Fa  Do
Rem  Sib  Fa  Do

Do      Fa               Rem
We are giants, I can't believe it
        Fa           Sib
We were giants all along
       Do               Rem
On the surface and all around us
       Fa              Sib
We are giants, we are strong
          Do                  Rem
I see you standing, see you dancing
Fa                         Sib
On the pavement, in the park
       Do               Rem
We are giants, can you feel it
        Fa               Sib
So much bigger than we thought

Rem                 Sib
I think I might be heading out of body
Do                         Sib
I've gotta love, you've gotta love somebody

Rem
When I look in your eyes
Sib                  Fa
I'm bigger than the night sky
Do              Rem             Sib
As high as the sun, hard as a stone
       Fa               Do
We are giants, we are giants
       Rem
We are giants

Rem  Sib  Fa  Do

Do         Fa             Rem
There are giants across the water
          Fa               Sib
There are giants heading home
       Do             Rem
In the middle of the madness
          Fa            Sib
There are giants being born

Rem                 Sib
I feel us breaking out of empty glory
Fa                           Do
I hear the singing in the halls of mystery
Rem                          Sib
I think i might be heading out of body
Do                         Sib
I've gotta love, you've gotta love somebody like you

Rem
When I look in your eyes
Sib                  Fa
I'm bigger than the night sky
Do              Rem             Sib
As high as the sun, hard as a stone
       Fa               Do
We are giants, we are giants
