Masterpiece – Take That

```
Re Re/Do Sol/Si Solm/Sib

Re                  Re/Do
 I'm writing you a love song
                       Sol/Si
The kind you've never heard
                 Solm/Sib
I'm putting my emotions
                 Re
Into melody and words
                  Re/Do
It's taken me forever
                 Sol/Si
May never be complete
                     Solm/Sib
When I put it all together
             Re
Yes, I do believe

                  Re/Do
This is my masterpiece
                       Sol/Si
How you will remember me
                                      Solm/Sib
Will make you laugh, will make you cry
                     Re
My hello and my goodbye
                                Re/Do
All that I've been trying to say
                       Sol/Si
Every second of every day
                              Solm/Sib
Cue the music, close your eyes
               Re     Re/Do
All will be alright
               Sol/Si   Solm/Sib
All will be alright

Re               Re/Do
 I lost my motivation
                           Sol/Si
Somewhere in the second verse
                   Solm/Sib
I cannot find the language
                    Re
To say how much it hurts
                  Re/Do
So I sit at my piano
                    Sol/Si
Begging you not to go
                 Solm/Sib
The audience is waiting
               Re
And I already know

                  Re/Do
This is my masterpiece
                       Sol/Si
How you will remember me
                                      Solm/Sib
Will make you laugh, will make you cry
                     Re
My hello and my goodbye
                       Re/Do
This is me stood on a stage
```

By TestoeAccordi.it

```
                     Sol/Si
Telling you to never change
                       Solm/Sib
Cue the music, cut the lights

               Sim
All will be alright
               Sib
All will be alright
               Re     Re/Do
All will be alright
                Mim
No matter what happens
Sol
We will know
Solm
We will know

Re                  Re/Do
 This is my masterpiece
                       Sol/Si
How you will remember me
                                      Solm/Sib
Will make you laugh, will make you cry
                     Re
My hello and my goodbye
                       Re/Do
This is me stood on a stage
                     Sol/Si
Telling you to never change
                       Solm/Sib
Cue the music, cut the lights

Now I realise
               Re
All will be alright
     Re/Do
Be alright
Sol/Si
   It'll be alright
Solm/Sib         Re
     My masterpiece
Re/Do                       Sol/Si
   How you will remember me
Solm/Sib         Re
     My masterpiece
```
