Pray - Take That

```
Re La/Si Mim7 La x2

       Rem                  Do/Re
As the time grew near for me to show my love
Rem                       Sol/Re
The longer I stayed away for
Rem                             Do/Re
Hiding from a word I need to hear now
Rem                           Sol/Re
Don't think I'll hear it again

      Sib7+              Sol         Re
But the nights were always warm with you
Lam7                      Sol
Holding you right by my side,
      Sib7+          Sol        Re/Fa#
But the morning always comes too soon
  Mim7                   La7
Before I even close my eyes

Re                La/Si
All I do each night is pray
Mim7                   La7
Hoping that Ill be a part of you again someday
Re                La/Si
All I do each night is think
Mim7                             La7
Of all the times I close the door to keep my love within

       Rem                             Do/Re
If you can't forgive the past Ill understand that
Rem                       Sol/Re
Can't understand why I did this to you
       Rem                               Do/Re
And all of the days and the nights, oh I'll regret it
Rem                       Sol/Re
I never showed you my love

      Sib7+              Sol         Re
But the nights were always warm with you
Lam7                      Sol
Holding you right by my side,
      Sib7+          Sol        Re/Fa#
But the morning always comes too soon
  Mim7                   La7
Before I even close my eyes

Re                La/Si
All I do each night is pray
Mim7                   La7
Hoping that Ill be a part of you again someday
Re                La/Si
All I do each night is think
Mim7                             La7
Of all the times I close the door to keep my love within

Rem                    Sib7+
Surely we must be in sight
Do4                    Do
of the dream we long to live
Solm7                          Fa/La
If you stop and close your eyes
       Sib7+
you'll picture me inside
