Relight my fire - Take That

Rem Lam 4v

```
 Lam                   Rem                Lam      Rem
Help me escape this feeling of insecurity,
 Lam                                    Rem                  Lam      Rem
I need you so much, but I don't think you really need me.
 Rem                                     Lam
But if we all stand up in the name of love,
               Rem                           Lam
and state the case of what we're dreaming of,
     Rem                           Lam
I've got to say I only dream of you,
            Rem                                                        Mi
but like a thief in the night you took away the love that I knew.

Rem   Sol           Lam  - Rem         Sol              Lam
Relight my fire,          your love is my only desire.
Rem   Sol      Lam           Re   Lam       - Lam - Rem - Lam - Rem
Relight my fire, 'cos I need your love.
 Lam                             Rem
Turn back the times till the days when
             Lam            Rem
our love was new,do you remember ?
    Lam                 Rem                      Lam       - Rem
No matter what was happening, I was there with you.
         Rem                             Lam
But if we all stand up for what we believe,
           Rem                  Lam
and maybe live within our possibilities,
      Rem                           Lam
the world would be wild for the dream,
          Rem                                              Mi
so baby, don't turn away, listen to what I got to say.

                                                 Lam
Yeah, you've got to be strong enough to walk on through the night,
there's a new day on the other side.
You got to have hope in your soul, just keep on walking.

  Lam                                    Rem
Strong enough to walk on through the night,

there's a new day on the other side,
           Lam         Rem
and I got hope in my soul,
                Lam                     Rem
