These days - Take That

```
          Solb
Oh, I can see the future
Reb
Coming to you
Sibm                          Lab
Cry away the sadness in your eyes
          Solb
And I can find a faith
   Reb
In days I've wasted
Sibm                          Lab
Been around enough to feel alive
             Solb
And when the world is broken,
Reb
Hard and cold,
    Sibm                           Lab
And no one ever knows the reason why
         Solb
For the ones we may become
         Reb
For the battles we have won
         Sibm
For the day we reach the sun
      Lab            Solb Reb   Sibm Mibm7
Gonna play it loud tonight

Fam7 Mibm7   Sibm Lab

Solb      Reb
 When you dream of a dream
Sibm    Mibm7
 And you live in the world
Fam7   Mibm7                    Sibm
 Every hope is a hope for the best
              Lab        Solb
And won't you rest on my bones
    Reb                    Sibm
And you're calling me now
  Mibm7                 Fam7
I was here all the time
       Mibm7                     Sibm
Should be out there living the life
           Lab
And not just watching, oh
Solb    Reb
Take me back
          Sibm   Mibm7
Before we all explode
          Fam7    Mibm7
Before we turn to stone
           Sibm      Lab
Before the night has gone
Solb
Take me back
            Reb
To where it all began
             Sibm
To where our memories grow
            Lab      Solb
Before they take us over

Reb    Sibm           Lab
Tonight   we're gonna live for
Solb   Reb            Sibm  Lab
