The Verve - Gravity grave

```
Lam7

Lam7
 Get back, get back again and again

I've been here since i can remember when

My life is a boat, being blown by you

With nothing ahead, just the deepest blue...
   Re                        Do
To me you're like a setting sun
                         Lam
You shine then you're gone
   Re                         Do
To me you're like a setting sun
                        Lam
You shine then you're gone

Lam7
 Come back, come back again and again,

I've been here since i can remember when

Your world just spins whilst mine stands still

Nothing's changed in my gravity grave...
   Re                        Do
To me you're like a setting sun
                         Lam
You shine then you're gone
   Re                         Do
To me you're like a setting sun
                        Lam
You shine then you're gone

Lam7/9

   Re                        Do
To me you're like a setting sun
                         Lam
You shine then you're gone
   Re                         Do
To me you're like a setting sun
                        Lam
You shine then you're gone
    Re
But i want my life
   Do                 Lam
So bright it burns my eyes
Re                       Do
Sounds like the perfect way
          Lam
To end my life
   Re                         Do    Lam
To me you're like a setting sun...
   Re                         Do    Lam
To me you're like a setting sun...
