The Verve - She's a superstar

```
Mi  Si4  Re  La 4v
Mi  Si4  La9
Mi  Si  La9

         Mi
Here she comes
      Si7
Seven suns
  La9
A burning flame
           Mi
She got my love
       Si7
Got my head
         La9
But it's all the same
               Mi   Si
She climbed so high
  La9
I don't know why
Mi    Si
High
       La9
On her own

      Mi    Si
And I know
      Re     La
She's in the air
                        Mi  Si
And I don't want it to go
      Re       La
I can feel her love
                        Mi  Si  La9
But I don't want it to go

Mi  Si9  La9

           Mi
She got my woe
       Si7
Got my hand
         La9
Took the dreams

Right outta my head
               Mi
She bought the world
           Si7
I paid the bills
             La9
I took those pills

It was wind in her sails
               Mi     Si
She climbed so high
  La9
I don't know why
Mi     Si
High,
       La9
On her own

      Mi    Si
And I know
