The Verve – Slide away

```
La   Re     Sol   Mim7

             La   Re
So take your time
  Sol                    Mim7           La
I wonder if you're here just to use my mind
Re                 Sol
Don't take it slow
                     Mim7
You know I've got a place to go
La          Re9
 You always do that
Sol               Mim7   La
Something I'm not sure of
    Re9
But just for today
Sol          Mim7
 Let go and slide away

La
 I was thinking maybe we could go outside
Sol                                  Fa#m7
 Let the night sky cool your foolish pride

Don't you feel alive
          Sol
these are your times and our highs?

La   Re      Sol   Mim7

La   Re      Sol   Mim7

             La   Re
So take your time
  Sol                      Mim7
I wonder which cup you'll drink
                 La   Re   Sol  Mim7
from I hope it's mine
           La             Re
Beause you always do that something
Sol               Mim7   La
Something I'm not sure of
    Re             Sol
But just for today
           Mim7
Let go and slide away

La   Re      Sol   Mim7

La   Re      Sol   Mim7

                    La    Re
'Cause I read your mind
  Sol                  Mim7
I readed it because it takes me
              La   Re      Sol   Mim7
where I can't find
             La             Re
Because you always do that something
Sol               Mim7   La
Something I'm not sure of
    Re9
But just for today
Sol         Mim7
 Let go and burn away

 Maybe ever we could go outside
Sol                                     Fa#m7
 Let the night sky cool your foolish pride

Open up, you feel alive
          Sol               La
these are your times and my highs
