

Circles - James Blunt

Mi Si Do#m La7+

Mi
Do you ever feel like you just want to turn and go
Si
Take the red-eye south headed down to Mexico
Do#m
Do you ever want a brand-new start
La7+
'Cause the person that you really are isn't who you are
Mi
Do you ever hear people talk about what's meant to be
Si
Walk away thinking, man, that isn't meant for me
Do#m
Mmm, sometimes life is too damn hard
But you know in your heavy heart
La
It's too late to go back to the start

Mi
So come and breathe it in
The air's the medicine
Si
It's only in the dark
You get to see the stars
Do#m
If you wished your life for a better one
La7+
When you know full well it'll never come to you
Mi
Do you ever count the walls, the ones that just close you in
Si
While you referee a fight with who you are and who you've been?
Do#m
I know you wanna keep your enemies near
La7+
But it's only your voice you'll hear at 4 A.M.

Mi
So come and breathe it in
The air's the medicine
Si
It's only in the dark
You get to see the stars
Do#m
If you wished your life for a better one
When you know full well it'll never come
La
It'll never come, it'll never come to you
Mi
You go round in circles (Circles)
Si
You go round in circles (Oh-oh)
Do#m
You go round in circles
La7+
Oh, oh
Fam7
'Cause life is moving fast
La
So live like it's your last

Do#m
The future's in the past
La7+
In just a moment
Fam7
So drink and love and dance
La
Don't make too many plans
Do#m
'Cause all we ever have
La7+
Is in this moment now

Mi
So come and breathe it in
The air's the medicine
Si
It's only in the dark
You get to see the stars
Do#m
If you wished your life for a better one
When you know full well it'll never come
La
It'll never come, it'll never come to you

Mi
You go round in circles
Si
You go round in circles (Oh-oh)
Do#m
You go round in circles (Oh-oh)

La7+ Mi
Oh, oh
