Believe Me - Teo Bok

```
Re

Do#7           Sim7
All my life, I've dreamed about you
Fa#m                  Mi
 Since I was a little kid
  Do#m7
I heard you in the quiet
      Sol7         Fa#m
Long before I knew what it was
                       Sim7
You were a fire beneath my skin
         Do#m7
A light I couldn't hide
   Re7+
I crossed the world to find you
                          Do#7
But you were here inside

                     Fa#m7
I've given you my nights and mornings
                    Sim7
Every road, every part of me
                          Mi
You came and heard me through the silence
                                    La Do#7
Come on, you set this heartbeat free
        Fa#m7
Please, believe me!
                          Sim7
My heart only beats for you, oh-oh
 Mi
Believe me!
                                   LA   Do#7
There's nothing we can't make it through
         Fa#m7
When the whole world shakes, we'll keep our feet
           Sim7
Turn the pain into a rhythm on the street
     Mi
And we'll dance till my last day
                                LA          Do#7
To a beat of our own dreams believe me!

                          Fa#m7
You made me dig beneath the surface
                         Sim7
Past the man I used to show
                                 Mi
Pulled the truth out of the darkness
                 La
Taught me things I didn't know
                          Re7+
If you're listening, don't leave me
                   Do#7
I've got everything to lose
        Fa#m7
Please, believe me!
                          Sim7
My heart only beats for you, oh-oh
 Mi
Believe me!
                                   LA   Do#7
There's nothing we can't make it through
```

```
 Fa#m
Someone told me
"Stay faithful, you will be who you're meant to be"
        Mi
So I stayed when no one listened
           La       Do#7
And you stayed here with me
      Fa#m
Believe me!
                          Sim7
My heart only beats for you, oh-oh
   Mi
Believe me!
                                    LA   Do#7
There's nothing we can't make it through
  Fa#m
Let the people cry, let the whole world see
       Sim7
You're the fire and the rhythm inside of me
           Mi
And we'll dance till my last day
To a beat of our own dreams
 La          DO#7
Believe me, believe me!
   Re7+          Do#7
All my life, I've dreamed about you
                    Fa#m
You are the music within me
```
