

Never say goodbye - Bon Jovi

La Do#m Re Rem

La

As I sit in this smokey room

Do#m

The night about to end

Sol

I pass my time with strangers

Re

But this bottle's my only friend

La

Remember when we used to park on

Do#m

Butler Street out in the dark

Sol

Remember when we lost the keys

Re

And you lost more than that in my backseat, baby

La

Remember how we used to talk

Do#m

About busting out, we'd break their hearts

Sol Re Sol Re

Toge-ther, fore - ver

La

Do#m

Never say goodbye, never say goodbye

Re

You and me and my old friends

Rem

Hoping it would never end

La

Do#m

Say goodbye, never say goodbye

Re

Holdin' on - we've gotta try

Rem

Holdin' on to never say goodbye

La Do#m Re Rem

La

Remember days of skipping school

Do#m

Racing cars and being cool

Sol

With a six pack and the radio

Re

We didn't need no place to go

La

Remember at the prom that night

Do#m

You and me, we had a fight

Sol

But the band, they played our favorite song

Re
And I held you in my arms so strong

La
We danced so close, we danced so slow
Do#m
And I swore I'd never let you go
Sol Re Sol Re
Toge-ther, fore - ver
