Michael Bublé - After All ft Bryan Adams

```
 Mi  La Mi  La

Mi
Way back when we started
            La
There was a part of me that knew
Mi
One day there'd be heartache
            La
And I would lose myself to you

      Do#m        Si
And I walked all night
             Re            La
Watching the sun and city lights
         Fa#m
Thinking of you
          Si                    Mi
Wondering where I lose my mind

      Si         Do#m               La            Mi
After all I'm excited that you're in my life again
      Si         Do#m           La              Mi
After all I'm delighted to be back when we begin
          Si         La
I believe that you can
         Mi        Si  Do#m
Fall in love with me again
          Fa#m              Si          Mi
And we'll both be standing tall after all

Mi
Way back when we started
            La
There was a part of you that knew
Mi
I was all that you wanted
         La
But only shadows fill the room

      Do#m      Si
I was lost all right
            Re               La
Lost in the sleepless empty nights
         Fa#m
Dreaming of you
             Si                    Mi
And in those dreams you were mine

      Si           Do#m               La            Mi
After all we're united, yeah you're in my arms again
      Si          Do#m                  La                Mi
After all I'm delighted, cause we're lovers and we're friends
          Si      La
I believe that I can
         Mi        Si    Do#m
Fall in love with you again
         Fa#m                Si           Mi
And I'll catch you when you fall, after all

 Mi  La Mi  La

      Do#m      Si
I was lost all right
