```
 Sol          Dosus2
Time goes by
                  Sol                    Dosus2
And I've been holding everything inside
          Sol                           Sim7
But now I've got nothing left to hide
               Mim         Do
When I'm with you, oh, you

    Sol      Re
But I can see
              Mim                       Do
How strong a man I'm gonna have to be
           Sol                      Re
To do for you what comes so naturally
                      Mim       Do
It's in the way you move

Lam          Re
And all I want
       Sol          Do
Is a chance to prove
     Lam    Re
Show all I can do

   Sol
I believe in starting over
       Do
I can see that your heart is true
    Sol                                Re
I believe in good things coming back to you
  Mim
You're the light that lifts me higher
    Do
So bright, you guide me through
Mim   Do          Sol
I believe in you

    Sol        Re
And I don't mind
          Mim                      Do
If you want to hold onto me tight
           Sol                      Re
You don't have to sleep alone tonight
   Mim              Do
If you don't want to

Lam          Re
And all I want
       Sol            Do
Is to know you're near
       Lam     Re
You're all I need here

   Sol
I believe in starting over
       Do
I can see that your heart is true
    Sol                                Re
I believe in good things coming back to you
