Michael Bublé - Lost

```
Sol     Re      Do     Mim    Re   Sol   (x2)

Sol
 I can't believe it's over
  Sim
 I watched the whole thing fall
       Rem6                                    Mi
 And I never saw the writing that was on the wall
Mi7           Lam
 If I only knew
                     Mi7/Sol#
 Days were slipping past
                            Lam
 That the good things never last
                     Re
 That you were crying
 ...Mmmmmm

Sol
 Summer turned to winter
         Sim
 And the snow it turned to rain
         Rem6                                Mi
 And the rain turned into tears upon your face
Mi7             Lam                      Re
 I hardly recognized the girl you are today
                                  Sol
 And god I hope it's not too late
 Mmmmmm ...
              Re
 It's not too late

       Mim      Re     Lam
 'Cause you are not alone
                           Re
 I'm always there with you
                       Sol
 And we'll get lost together
          Sim                    Mim
 Till the light comes pouring through
                                   Lam
 'Cause when you feel like you're done
                       Re
 And the darkness has won
                     Sol   Sim    Mim
 Babe, you're not lost
                                Lam
 When your worlds crashing down
                           Re
 And you can't bear the thought
                                Sol
 I said, babe, you're not lost

(Sol)   Re    Do     Mim    Re   Sol

Sol
 Life can show no mercy
        Sim
 It can tear your soul apart
       Rem6                                                    Mi
 It can make you feel like you've gone crazy But you're not
Mi7                        Lam
Things have seem to changed
```

```
                                          Mi7/Sol#
 There's one thing that's still the same
                          Lam7
 In my heart you have remained
             Re   Do     Re    Do   Re
And we can fly   fly  fly   a-way...

    Mim      Re     Lam
 'Cause you are not alone
                           Re
 I'm always there with you
                       Sol
 And we'll get lost together
          Sim                   Mim
 Till the light comes pouring through
                                   Lam
 'Cause when you feel like you're done
                       Re
 And the darkness has won
                    Sol   Sim    Mim
 Babe, you're not lost
                                Lam
 When your worlds crashing down
                               Re
 And you can't bear to fall
                              Sol
 I said, babe, you're not lost

Sol     Re    Do

        Mim    Re              Sol   Re  Do
I said, babe, you're not lost
        Mim    Re            Sol   Re  Do
 I said, baby, you're not lost
        Mim    Re             Sol
 I said, baby, you're not lost
```
