Michael Bublé - You've got a friend in me

```
Re
You've got a friend in me
Sol                      Re
You've got a friend in me
Sol        Re          Fa#m        Sim
When the road looks rough ahead
Re
And you're miles and miles from your nice warm bed
Sol        Re                  Fa#m      Sim
You just remember what your old pal said
       Mi7          La         Re
Yeah, you've got a friend in me
      Mi7                   Re
Baby you've got a friend in me

Re            Sol      Re
You've got a pal in me
Sol                     Re
You've got a friend in me
Sol                   Re       Fa#m       Sim
You've got your troubles, I've got em too
Sol               Re        Fa#m        Sim
There isn't anything, I wouldn't do for you
Sol             Re        Fa#m        Sim
We stick together and see it through

Mi7                  La         Re
Cause you've got a friend in me
         Mi7                    Re
Darling, you've got a friend in me

Sol                           Do#
Now some of the boys might be a little smarter than me
Re
Or bigger and stronger, too
Do#
Baby none of them is ever gonna love you
La
The way I do
   Mi7          La
Oh it's me and you
Re            La       Re
And as the years go by
     Sol                    Re
Our friendship will never die
Sol                            Sim
You're gonna see, it's our destiny
        Mi7                  Re
Cause you've got a friend in me
        Mi7                      Re
My baby you've got a friend in me

Sol                           Do#
Now some of the boys might be a little smarter than me
Re
Or bigger and stronger, too
Do#
Baby none of them is ever gonna love you
La
The way I do
   Mi7          La
Oh it's me and you
Re            La       Re
And as the years go by
```

```
    Sol                 Re
Our love will never die
Sol                            Re Fa#m Si7
You're gonna see, it's our destiny
       Mi7                     Re
Cause you've got a friend in me
  Mi7                      Re
You've got a friend in me
Mi7                        Re
You've got a friend in me
            Mi7           Sol          Re
My darling, you've got a friend in me
```
