Jake Bugg - Song About Love

Do#, Fa#

```
                    Do#
You tell me all the things you do
                  Fa#
Tell me that it's up to you
               Do#
Crying in the peaceful night
                 Fa#
Telling all the things you hide

                   Do#
But out there in the future
                  Fa#
Maybe you're the rainbow
                  Do#
There's no song without love
          Re#m                         Sol#    Sol#2  Sol#
With your eyes shut you cry in your bed

    Sol#2          Do#
Is that what you wanted?
            Si
Songs about love
                 Fa#
Is that what you hoped you would find

Well it's burning inside
      Sol#         Fa#          Fam
But a song about love's not enough
   Re#m         Do#
So what do you want for?
             Si
What are you needing?
            Fa#
Songs about memories that hide and then shatter your mind
       Sol#         Fa#
Like a constant reminder
  Fam           Re#m            Do#
I just want to find where you are

Sol#     Fa#      Fam   Re#m      Do#
I just want to find where you are
```
