Sol Fa#m Sim La

Sol               Fa#m           Sim                      La
  I wonder if I take you there, would you believe in fairy tales, oh
Sol                      Fa#m           Sim               La
  A place where no one feels the pain, living without suffering
Sol                        Fa#m
  The roads are paved by loving hands
Sim             La
   Energy from turning friends, oh
Sol                     Fa#m
  So won't you open up your eyes
Sim                      La
   So you can see this paradise, oh

Sol              Fa#m
I won't die to get to mine
  Sim               La
I want this thing alive
                        Sol           Fa#m
I'll take my paradise on earth, yeah
                        Sim            La
I'll make my paradise on earth, oh, oh
                        Sol         Fa#m
I'll make my paradise on earth
                        Sim        La
I'll take my paradise on earth

I'll make my paradise on earth

Sol Fa#m Sim La (x2)

Sol                   Fa#m
  It's easier when you believe
Sim                     La
   Some people rather misery
Sol                 Fa#m
  But I prefer a place
          Sim
you and I are free
                        La
The whole world sings in unity

Sol              Fa#m
I won't die to get to mine
  Sim               La
I want this thing alive
                        Sol           Fa#m
I'll take my paradise on earth, yeah
                        Sim            La
I'll make my paradise on earth, oh, oh
                        Sol         Fa#m
I'll make my paradise on earth
                        Sim        La
I'll take my paradise on earth

I'll make my paradise on earth

Sol                                 Fa#m
And all of the world, you were standing around
Sim                          Sim
You couldn't smile, cause trouble's all you find
Sol                                      Fa#m
So now that you're around, and there's no going back
