Europe - New love in town

```
Do           Mim
Nothing looks quiet the same
      Do                              Mim
I see people and places in the moonlight again
          Do                       Mim
There’s a grace ascendant to a broken sky
      Do                  Lam7
Now I know, there’s a reason why
   Sim      Re
I feel so alive
          Mim   Do          Sol           Re
’Cause tonight, there’s a new love in town
    Mim        Do     Sol                Re
Waking emotion, I thought I’d never find
        Sim  Re Lam    Mim       Lam
Yes tonight how you turn it around
                         Do
I want to tell the whole world
                      Mim
There’s a new love in town   repeat Do and Mim with smooth little solo
             Do        Mim
Spareless dreams, kind of lone
                         Do                Mim
Always held my head up high little that I know
                          Do                Mim
Then my rose turned it reality it soon fall apart
                     Do                         Lam7
Just I’m holding you gently there’s a hole in my heart
    Sim              Re
A might of the dark
So tonight …
Re                     Do                       Sol
And everyone I meant has made me what I am today
Re                         Do             Sol
And every choice I made has left me here today
Re                           Do         Sim
And every time I see your face I’ve gotten my way

solo on Chorus chords ending in Re Sim Re and then Mim for the Chorus

Yes tonight there’s a new love in town
Is waking emotion, though I’ve never thought I find
Yes tonight how you turn it around
I want to tell the whole world
There’s a new love in town
There’s a new love in town
```
