Ocean ft Khalid – Martin Garrix

```
Dom    Sib6    Lab  2v

Dom                 Sib6
Tell me what you're crying for
Lab
I'll wipe your tears, oh love
Dom              Sib6
If your soul is achin' love
      Lab
We'll comfort you for sure
Dom                   Sib6          Lab
If we're caught in a wave, I will carry you over
Dom             Sib6
It don't matter where you are,
 Lab
I'll run to your front door
        Fam                       Mib9/Sol
When my head goes in different directions
            Lab                      Sib
You know my heart's never on the move
           Fam                              Mib9/Sol
And in the dark times, you don't have to question
         Lab
If I'm a hundred with you (with you)

                 Lab
You could put an ocean
            Mib
between our love, love, love
Sib/Re               Dom
 It won't keep us apart
                  Lab                   Mib
You could build a wall, I would run it up, up, up
Sib/Re                  Dom   Sib/Do
 Just to get to your heart
Lab                   Mib
If we're caught in a wave
Sib/Re              Dom
Baby, we'll make a way
                 Lab
You could put an ocean
            Mib
between our love, love, love
Sib/Re                      Lab    Mib
 It won't keep us apart...
Solm              Dom    Lab    Mib
Love, between our love...
Solm
Love, between our love

Dom             Sib6
Shadows play on idle hands
Lab
I lose myself, I do
         Dom             Sib6
But I've found my way to velvet sands
 Lab
I'll crash right into you
Dom                   Sib6         Lab7+
If we're caught in a wave, I will carry you over
Dom             Sib6
It don't matter where we are
 Lab
You're still the one I choose
