Scared to be lonely ft Dua Lipa - Martin Garrix

```
La7+   Do#m    Si   Sol#m

       La7+                  Do#m
It was great at the very start
Si                 Sol#m
Hands on each other
         La7+                  Do#m
Couldn't stand to be far apart
Si               Sol#m
Closer the better
                  La7+                   Do#m
Now we're picking fights and slamming doors
     Si              Sol#m
Magnifying all our flaws
              La7+               Do#m
And I wonder why, wonder what for
       Si                   Sol#m
Why we keep coming back for more

La     Mi
 Is it just our bodies?
Si      Do#m7           La
 Are we both losing our minds?
             Mi                      Si
Is the only reason you're holding me tonight
              Do#m7               La
'Cause we're scared to be lonely?
      Mi            Si
Do we need somebody
         Do#m7             La
just to feel like we're alright?
             Mi                      Si
Is the only reason you're holding me tonight

'Cause we're scared to be lonely?

La    Mi    Si    Do#m

La    Mi    Si  Sol#m Do#m

         La                       Do#m
Too much time, losing track of us
   Si             Sol#m
Where was the real?
    La                          Do#m
Undefined, spiraling out of touch
   Si            Sol#m
Forgot how it feels
                  La                     Do#m
All the messed up fights and slamming doors
     Si               Sol#m
Magnifying all our flaws
              La                  Do#m
And I wonder why, wonder what for
              Si                     Sol#m
It's like we keep coming back for more

La     Mi
 Is it just our bodies?
Si      Do#m7           La
 Are we both losing our minds?
             Mi                      Si
Is the only reason you're holding me tonight
              Do#m7               La
'Cause we're scared to be lonely?
```

```
      Mi           Si
Do we need somebody
        Do#m7             La
just to feel like we're alright?
            Mi                    Si
Is the only reason you're holding me tonight
                                  La    Mi    Si
'Cause we're scared to be lonely?
Do#m               La    Mi    Si  Sol#m Do#m
Scared to be lonely...

La                      Do#m
Even when we know it's wrong
              Si                  Mi/Sol#
Been somebody better for us all along
         La                       Do#m
Tell me, how can we keep holding on?
        Si                      Sol#m
Holding on tonight 'cause we're scared to be lonely
La                      Do#m
Even when we know it's wrong
              Si                  Mi/Sol#
Been somebody better for us all along
         La                       Do#m
Tell me, how can we keep holding on?
        Si                      Sol#m
Holding on tonight 'cause we're scared to be lonely

La     Mi
 Is it just our bodies?
Si      Do#m7           La
 Are we both losing our minds?
            Mi                    Si
Is the only reason you're holding me tonight
                                  La   Mi   Si
'Cause we're scared to be lonely?...

La    Mi    Si    Do#m    La    Mi    Si

Sol#m     Do#m     La    Mi    Si
Scared to be lonely...
          Do#m     La    Mi    Si
Scared to be lonely...
        Sol#m     Do#m7
Eh, eh, scared to be lonely
```
