The Lumineers - Angela

```
Sol  Rem  Do/Sol  Do/Sol

         Sol                          Rem
When you left this town, with your windows down
        Do/Sol
And the wilderness inside
        Sol                   Rem
Let the exits pass, all the tar and glass
         Do/Sol
'Til the road and sky align

    Sol                 Rem
The strangers in this town,
     Do/Sol                 Lam
They raise you up just to cut you down
   Sol             Rem             Do/Sol
Oh Angela it's a long time coming

         Sol                   Rem
And your Volvo lights lit up green and white
         Do/Sol
With the cities on the signs
        Sol                         Rem
But you held your course to some distant war
       Do/Sol
In the corners of your mind

         Sol             Rem
From the second time around
    Do/Sol         Lam
The only love I ever found
   Sol             Rem             Do/Sol
Oh Angela it's a long time coming

    Sol      Do/Sol  Mim
Home at laaaaaast

         Sol                      Rem
Were you safe and warm in your coat of arms
          Do/Sol
With your fingers in a fist
        Sol                           Rem
Did you hear the notes, all those static codes
       Do/Sol
In the radio abyss?

Sol                 Rem
Strangers in this town,
     Do/Sol                 Lam
They raise you up just to cut you down
   Sol             Rem             Do/Sol     Lam
Oh Angela it's a long time coming
   Sol                 Rem                 Do/Sol
Oh Angela spent your whole life running away

    Sol       Do/Sol Mim
Home at laaaaaast
    Sol       Do/Sol Mim
Home at laaaaaast

    Sol          Rem            Do/Sol         Lam
Vacancy, hotel room, lost in me, lost in you
    Sol         Rem         Do/Sol       Lam
Angela, on my knees, I belong, I believe
