Jamie Miller - Babydoll

```
Fa    Sib9    Rem7    Sib9

Fa                            Fa/La Sib9
 There's something about how you  dance,
                     Do Rem7
you got the cool confidence
                           Fa/La Sib9
I think you're just what I    need
Fa                      Fa/La Sib9
 You got that look in your eye
                     Do4 Rem7
like you might ruin my life
                    Fa/La Sib9
But, baby, sign me up  please
     Do
I say, "Bring it on"
Rem7                 Sib9
 Bring it on over here
        Solm7/4                              Do
Babydoll, those eyes could bring me to my knees
            Rem7
Bring it on
                    Sib9
Bring it on over here
                    Do7/4
Let me make myself clear

                    Fa       Fa/La Sib9
If someone's gonna hurt me
         Do         Rem7          Fa/La Sib9
If someone's gonna tear my world in  two
                    Fa
If someone's gonna wreck me
Fa/La Sib9     Do4 Rem7
Be----lieve  me baby
                         Fa/La Sib9
That someone's gotta be      you
Do                         Rem7
 If you're gonna leave me broken-hearted
Sib9                       Solm7/4            Do
 Then maybe, baby, we should just get started, 'cause
                          Rem7
That someone's gotta be
                                    Sib9
That someone's gotta be, gotta be
                          Solm7/4
That someone's gotta be you

Do          Rem7                          Sib9
 Now that I spent a little time in your heaven

It's like I'm staring down a weapon
Do                               Rem7
 It could be good, it could be bad,
                           Sib9
it could just leave me a mess
                        Solm7/4
No, it don't make no sense
          Do            Rem7
But I say, "Bring it on"
                    Sib9
Bring it on over here
        Solm7/4                              Do
Babydoll, those eyes could bring me to my knees
