Alanis Morissette - To an empath at christmas time

```
Re  La  Fa#m  Mi
Re  Sol  Re  Sol
    Re                    Sol    Re              Sol
The lights are green and red, shimmering and white
      Re              Sol             Mim          La
These days are super dark and even quieter nights
Re                Sol          Re                 Sol
All this time to sense what all year felt not right
Re             Sol                  Mim         La
Nothing to distract us from this heavy ride
Mim             Fa#m
I can feel the planet
    Sim              Sol
The feelings they deny
Mim               Fa#m           N.C.
I can feel their sadness, Mom, and I don't know why
Sol                 Re
You don't have to smile big for us
Sol          Re
Nor have a joyous time
Sol                 Re                       Do
You won't have to hold your breath until New Year time
Sol              Re           Sol              Re
Your precious sensitivity has felt like curse and crime
Sol          Re                   Do          Mim Re
But you're not alone with your SOS inside
      Sol                   Re
To an empath at Christmas time
      Re          Sol           Re              Sol
These holiday melodies with presents all around
     Re              Sol
It's not that I'm ungrateful
                Mim                   La
It's just these blue chords in the sound
    Mim               Fa#m
The depth of your perception
       Sim                   Sol
You've had it in your whole life
     Mim              Fa#m                      Re
This time of year is rugged with all this pressure to be nice
Sol                 Re
You don't have to perform peace for us
Sol            Re
Nor belt out Auld Lang Syne
Sol         Re                 Do
You are a miracle who feels deeply and is kind
Sol              Re         Sol                Re
Your tender perceptivity picks up signals far, wide
Sol          Re                      Do                      Mim Fa#m
I see your wet eyes when you tell all of us you're fine
      Sol                   Re    Mim  Fa#m  Sol
To an empath at Christmas time
Re   Mim  Fa#m  Sol
Oh, oh, oh
Re   Mim  Fa#m  Sol
Oh, oh, oh
N.C.     Sol
Oh, oh, oh
N.C.
Your body's holding everything
N.C.
The tinsel on the ground
                              Do
They lie in contrast to this unrest that takes you down
```

```
Sol         Re
You don't have to dance for us
Sol            Re          Sol
Or make sure cheer is high
            Re                   Do                   Mim Re
Your porous soul can feel every reindeer in the sky
      Sol                   Sim Mim  Re  Sol  Re
To an empath at Christmas time, oh
      Sol                   Re
To an empath at Christmas time
```
