Jason Mraz – Have it all

```
Mi   Do#m   La   Si
               Mi
May you have auspiciousness and causes of success
                 Do#m
May you have the confidence to always do your best
                La
May you take no effort in your being generous
                 Si
Sharing what you can, nothing more nothing less
                 Mi
May you know the meaning of the word happiness
               Do#m
May you always lead from the beating in your chest
          La
May you be treated like an esteemed guest
               Si
May you get to rest, may you catch your breath
            Do#m                        La
And may the best of your todays be the worst
                Mi   Si
of your tomorrows...
            Do#m                   La
And may the road less paved be the road
              Mi   Si
that you follow...
     Mi
Well here's to the hearts that you're gonna break
Si                                    Sol#7
Here's to the lives that you're gonna change
Do#m                                   La
Here's to the infinite possible ways to love you
I want you to have it
Mi
Here's to the good times we're gonna have
Si                                   Sol#7
You don't need money, you got a free pass
Do#m                                  La
Here's to the fact that I'll be sad without you
I want you to have it all
Mi                Si
Oh! I want you to have it all
  Sol#7       Do#m
I want you to have it
               La
I want you to have it all
                  Mi
May you be as fascinating as a slap bracelet
                 Do#m
May you keep the chaos and the clutter off your desk
               La
May you have unquestionable health and less stress
            Si
Having no possessions though immeasurable wealth
              Mi
May you get a gold star on your next test
            Do#m
May your educated guesses always be correct
                La
And may you win prizes shining like diamonds
               Si
May you really own it each moment to the next
            Do#m                        La
And may the best of your todays be the worst
                Mi   Si
of your tomorrows...
```

```
            Do#m                    La
And may the road less paved be the road
              Mi   Si
that you follow...
     Mi
Well here's to the hearts that you're gonna break
Si                                    Sol#7
Here's to the lives that you're gonna change
Do#m                                    La
Here's to the infinite possible ways to love you
I want you to have it
Mi
Here's to the good times we're gonna have
Si                                    Sol#7
You don't need money, you got a free pass
Do#m                                   La
Here's to the fact that I'll be sad without you
I want you to have it all
Mi                 Si
Oh! I want you to have it all
  Sol#7       Do#m
I want you to have it
              La
I want you to have it all
Do#m                      Si
Oh, I want you to have it all
All you can imagine
Do#m                              Mi
All, no matter what your path is
If you believe it then anything can happen
La
Go, go, go raise your glasses
Si                  Sol#7/Do Do#m  Mi
Go, go, go you can have    it... all
I toast you
     Mi
Well here's to the hearts that you're gonna break
Si                                    Sol#7
Here's to the lives that you're gonna change
Do#m                                    La
Here's to the infinite possible ways to love you
I want you to have it
Mi
Here's to the good times we're gonna have
Si                                    Sol#7
You don't need money, you got a free pass
Do#m                                   La
Here's to the fact that I'll be sad without you
I want you to have it all
Mi                 Si
Oh! I want you to have it all
  Sol#7       Do#m
I want you to have it
              La
I want you to have it all
Mi
Here's to the good times we're gonna have
Si                              Sol#7
Here's to you always making me laugh
Do#m                                   La
Here's to the fact that I'll be sad without you
I want you to have it all
```
