Dig down - Muse

```
Sol

     Sol      Fa
When hope and love has been lost
                    Do
And you fall to the ground
                Sol
You must find a way
                    Fa
When the darkness descends
                        Do
And you're told it's the end
                Sol
You must find a way
                     Fa
When God decides to look the other way
                     Do
And a clown takes the throne
               Sol
We must find a way
               Fa
Face the firing squad
               Do
Against all the odds
                Sol
You will find a way

Dig down
Fa9
Dig down
Do
Dig down
          Sol
And find faith
                          Fa
When you're close to the edge
                 Do
With a gun to your head
                Sol
You must find a way

     Sol          Fa9
When friends are thin on the ground
                 Do
And they try to divide us
               Sol
We must find a way
                    Fa9
We have entered the fray
                 Do
And we will not obey
               Sol
We must find a way yeah

Dig down
Fa9
Dig down
Do
Dig down
          Sol
And find faith
                           Fa
When they've left you for dead (dig down)
                    Do
And you can only see red (dig down)
