Neutron star collision (Love is forever) - Muse

```
Reb   Reb/Fa
I was searching
Solb          Lab4 Lab7
You were on a mission
Reb                Reb/Fa
Then our hearts combined like
  Solb            Lab4 Lab7
A neutron star collision
Lab    Fa7/La       Solb/Sib Sibm
I have nothing left to lose
    Lab/Do            Reb
You took your time to choose
        Reb/Fa
Then we told each other
Solb             Lab7/4 Lab7
With no trace of fear   that...

    Solb Ladim        Reb    Fa7
Our love   would be forever
          Solb   Ladim
And if we die
         Reb     Fa7
We die together
    Solb Ladim    Reb    Fa7
And lie,   I said never
           Solb  Ladim
'Cause our love
           Reb
would be forever

    Reb      Fam7
The world is broken
Solb          Lab
Halos fail to glisten
    Reb           Fam7
You try to make a difference
    Solb            Lab
But no one wants to listen
          Fa7/La           Solb/Sib Sibm
Hail, The preachers, fake and proud
      Lab/Do            Reb
Their doctrines will be cloud
             Reb/Fa
Then they'll dissipate
     Solb             Lab
Like snowflakes in an ocean

    Solb Ladim        Reb    Fa7
Our love   would be forever
          Solb   Ladim
And if we die
         Reb     Fa7
We die together
    Solb Ladim    Reb    Fa7
And lie,   I said never
           Solb  Ladim
'Cause our love
           Reb
would be forever

Reb  Fam7  Solb  Lab

Reb  Fam7  Solb  Lab

Lab    Fa7/La       Solb/Sib Sibm
I have nothing left to lose
    Lab/Do            Reb
You took your time to choose
        Reb/Fa
Then we told each other
Solb             Lab7/4 Lab7
With no trace of fear   that...

    Solb Ladim        Reb    Fa7
Our love   would be forever
          Solb   Ladim

         Reb     Fa7
We die together
    Solb Ladim    Reb    Fa7
And lie,   I said never
           Solb  Ladim
'Cause our love
           Reb      Solb  Reb
would be forever

Labm  Reb   Solb  Reb   Labm  Reb

Fa7  Solb  La6  Reb

Fa7  Solb  La6  Reb
