Mim                                          Si
   I'm trapped and my back's up against the wall
                            Mim
I see no solution or exit out
                                  Si
I'm grinding it out, no one can see
                                  Mim
The pressure's growing exponentially
                                     Si
I'm trying to keep up to speed with you
                                    Mim
Your lane changing is oscillating me
                                     Si
I'm hitting the ground and I'm sprinting
                                    Mim
I'm falling behind now I'm tuning out

Sol            Re
  Don't push me
Sol            Re
  Don't push me
Mim                Si
Let me get off the ground
Mim                  Do
To you I'm no longer bound
Sol            Re
  Don't stop me
Sol             Re
  Don't choke me
Mim                  Si
I need you out of my head
Mim                      Do
You got me close to the edge

Mim  Si

Mim
   I'm feeling the pressure
              Si
I can't break out
                                Mim
No one can hear me scream and shout
                                Si
Get out of my face, out of my mind

I see your corruption
        Mim
I'm not blind
                                    Si
I'll carry the burden and take the strain
                                    Mim
And when I am done I will make you pay
