Something human - Muse

La   La4   La

   La4          La    La4   La
My circuits have blown
  Do#m/Sol#      Fa#m  Re/Fa#  Fa#m
I know it's self-imposed
    Mi         Re                    Mi
And all I have shared, and all I have loved
             Fa#m  Re/Fa#  Fa#m
Is all I'll ever own
    Mi           La    La4  La
But something has changed
  Do#m/Sol# Fa#m  Re/Fa#  Fa#m
I feel so   alive
   Mi             Re                  Mi
My life just blew up, I'd give it all up
          La   La4  La
I'll depressurize

Fa#m Mi  Re                La           Mi
Oh,  oh, oh, ten thousand miles left on the road
Fa#m Mi  Re                La          Mi
Oh,  oh, oh, five hundred hours 'til I am home
                 Fa#m Mi   La La/Do# Re
I need something hu---man, hu---------man
Fa#m Mi   La La/Do# Re
Hu---man, hu----------man

La  La4  La

      La4         La    La4  La
Let's face all our fears
     Do#m/Sol# Fa#m  Re/Fa#  Fa#m
Come out   of  the shade
      Mi           Re                     Mi
Let's burn all the money, absolve all the lies
               Fa#m  Re/Fa#  Fa#m
And wake up unscathed
    Mi           La   La4  La
The big picture's gone
              Do#m/Sol# Fa#m  Re/Fa#  Fa#m
Replaced with visions   of  you
    Mi         Re                       Mi
Now life can begin, I've cleansed all my sins
                  La   La4  La
I'm about to break through

Fa#m Mi  Re                La           Mi
Oh,  oh, oh, ten thousand miles left on the road
Fa#m Mi  Re                La          Mi
Oh,  oh, oh, five hundred hours 'til I am home
                 Fa#m Mi   La La/Do# Re
I need something hu---man, hu---------man
Fa#m Mi   La La/Do# Re     Mi
Hu---man, hu----------man...

          Fa#m   Mi  La La/Do# Re
And I need the touch
               Fa#m Mi   La La7/Do# Re
And something hu---man, hu----------man

La  La4  La  Do#m/Sol# Fa#m

Mi  Re     Mi     La  La4  La
