Lam   Fa   Do   Mi

Lam          Fa
 Strung out, falling from the big time
Do              Mi                  Lam
 Welcome to the infinite black skies
                Fa
Brain cleansed, fractured identity
Do             Mi
 Fragments and scattered debris

Lam         Fa                          Do

Prop me up before I blackout
           Fa                       Do
Withdraw before you're out of time
                Mi              Fa
Clean slate and buried war crimes
