OneRepublic - Secrets

Re  Fa#m/Do# Sim Sol

                Re
I need another story
                   Fa#m/Do#
Something to get off my chest
                     Sim
My life gets kinda boring
                        Sol
Need something that I can confess

              Re
Til' all my sleeves are stained red
               Fa#m/Do#
From all the truth that I've said
            Sim
Come by it honestly I swear
                   Sol
Thought you saw a wink, no
 Sol
I've been on the brink, so

                  Re
Tell me what you want to hear
                      Fa#m/Do#
Something that will light those ears
                 Sim
Sick of all the insincere
                   Sol
So I'm gonna give all my secrets away
Re                                 Fa#m/Do#
  This time, don't need another perfect lie
                                Sim
Don't care if critics ever jump in line
                Sol
I'm gonna give all my secrets away

Re                          Fa#m/Do#
  My god, amazing how we got this far
                          Sim
It's like we're chasing all those stars
                     Sol
Who's driving shiny big black cars

        Re
And everyday I see the news

All the problems that we could solve
              Fa#m/Do#
And when a situation rises

Just write it into an album
           Sim
Send it straight to gold
                 Sol
I don't really like my flow, no, so

                  Re
Tell me what you want to hear
                      Fa#m/Do#
Something that will light those ears
                 Sim
Sick of all the insincere
                   Sol
So I'm gonna give all my secrets away

                        Sol
Just don't let me disappear
