OneRepublic - Something I need

```
                              Sol
I had a dream the other night
                               Mim
About how we only get one life
                           Do
Woke me up right after two
                                Re
Stayed awake and stared at you
                              Sol
So I wouldn't lose my mind
                                          Sol
And I had the week that came from hell
                                    Mim
And yes I know that you can tell
                                          Do
But you're like the net under the ledge
                              Re
But I go flying off the edge
                            Sol
You go flying off as well

                     Mim                Re
And if you only die once I wanna die with

Sol
You got something I need
             Mim
In this world full of people there's one killing me
                 Do                  Re                          Sol
And if we only die once I wanna die with you (you, you, you)
Sol
You got something I need
             Mim
In this world full of people there's one killing me
                 Do                  Re                          Do
And if we only die once I wanna die with you (you, you, you)

                              Sol
Last night I think I drank too much
                               Mim
Call it our temporary crutch
                           Do
With broken words I tried to say
                                Re
Honey, don't you be afraid
                              Sol
If we got nothing we got us (Yeah)

                     Mim                Re
And if you only die once I wanna die with

Sol
You got something I need
             Mim
In this world full of people there's one killing me
                 Do                  Re                          Sol
And if we only die once I wanna die with you (you, you, you)
Sol
You got something I need
             Mim
In this world full of people there's one killing me
                 Do                  Re                          Do
And if we only die once I wanna die with you (you, you, you)
```

```
Sol
I know that we're not the same
      Mim
But I'm so damn glad that we made it
         Do               Re         Sol
To this time, this time, now (yeah)

Sol
You got something I need
            Mim
Yeah in this world full of people there's one killing me
                Do                  Re                          Sol
And if we only die once I wanna die with you (Yeah)

Sol
You got something I need
            Mim
In this world full of people there's one killing me
                Do                  Re                          Sol
And if we only die once I wanna die with you (you, you, you)
Sol
You got something I need
            Mim
In this world full of people there's one killing me
                Do                  Re                          Sol
And if we only die once I wanna die with you (you, you, you)
                  Do         Re
If we only die once I wanna die with

                  Mim          Re               Sol
If we only live once I wanna live with you
```
