La/Re  Sol/Re        Re9  Re

Fa                  La
Run, run, run, run, run, run, run, run
Re
Run, run, run, run, run, run, run, run

          Mi
You better make your face up in

Your favorite disguise
          Fa
With your button down lips and your

Roller blind eyes
          Mi
With your empty smile

And your hungry heart
Do
Feel the bile rising from your guilty past
          Si4
With your nerves in tatters

As the conch shell shatters
        Mi
And the hammers batter

Down the door

             Re
You'd better run

Re  La/Re        Sol/Re  Re

La/Re  Sol/Re        Re9  Re

Fa                  La
Run, run, run, run, run, run, run, run
Re
Run, run, run, run, run, run, run, run

           Mi
You better sleep all day

And run all night
          Fa
Keep your dirty feelings

Deep inside
              Mi
And if you're taking your girlfriend

Out tonight
             Do
You'd better park the car

Well out of sight
               Si4
'Cause if they catch you in the back seat

They're gonna send you back to mother

In a cardboard box

You better run...
