Taylor Swift - August

```
Re          Sol                      Mim
  Salt air, and the rust on your door
                         La
I never needed anything more
Re         Sol             Mim
  Whispers of "Are you sure?"
                    La
Never have I ever before

    Re
But I can see us lost in the memory
Sol                                   Mim
August slipped away into a moment in time
                     La
'Cause it was never mine
    Re
And I can see us twistin' in bedsheets
Sol                                  Mim
August sipped away like a bottle of wine
                     La
'Cause you were never mine

Re          Sol             Mim
  Your back beneath the sun
                               La
Wishin' I could write my name on it
Re              Sol                     Mim
  Will you call when you're back at school?
                      La
I remember thinkin' I had you

    Sim7
But I can see us lost in the memory
Sol                                   Mim
August slipped away into a moment in time
                     La
'Cause it was never mine
    Sim7
And I can see us twistin' in bedsheets
Sol                                  Mim
August sipped away like a bottle of wine
                     La
'Cause you were never mine

Re   Sol   Mim   La

Re                                                Sol
 Back when we were still changin' for the better
               Mim
Wanting was enough
                   La
For me, it was enough
                 Re
To live for the hope of it all
                         Sol
Canceled plans just in case you'd call
                                Mim
And say "Meet me behind the mall"
                     La
So much for summer love and saying "Us"
                     Re         Sol
'Cause you weren't mine to lose
                      Mim     La
You weren't mine to lose, no

La
  Do you remember
          Re
Remember when I pulled up and said "Get in the car"
          Sol
And then canceled my plans just in case you'd call
Mim                                                    La
Back when I was livin' for the hope of it all, for the hope of it all
