Taylor Swift - Enchanted

```
Sol   Sim   Do   Sol

Sol
There I was again tonight
Sim
Forcing laughter, faking smiles
Do                        Sol
Same old tired, lonely place
Sol
Walls of insincerity
Sim
Shifting eyes and vacancy
Do                          Sol
Vanished when I saw your face

                      Do                    Mim   Re
All I can say is, it was enchanting to meet you

Sol
Your eyes whispered 'have we met?'
Sim
Crossed the room, your silhouette
Do                          Sol
Starts to make its way to me
    Sol
The playful conversation starts
Sim
Counter all your quick remarks
    Do                       Sol
Like passing notes in secrecy

       Do                   Mim   Re
And it was enchanting to meet you
                     Do                   Mim   Re
All I can say is, I was enchanted to meet you

Do               Sol
  This night is sparkling
Re                Do
Don't you let it go
            Sol
I'm wonderstruck
         Re             Do
Blushing all the way home
              Sol    Re                Do
I'll spend forever wondering if you knew
                      Mim     Re  Sol
I was enchanted to meet you-ou-ou

    Sol
The lingering question kept me up
Sim
2 AM, who do you love?
 Do                       Sol
I wonder till I'm wide awake
    Sol
And now I'm pacing back and forth
Sim
Wishing you were at my door
  Do                         Sol
I'd open up and you would say 'hey'

   Do                   Mim   Re
It was enchanting to meet you
