Taylor Swift - Illicit affairs

```
Sib  Solm  Mib  Rem  Fa

Sib
 Make sure nobody sees you leave
Solm                                  Mib
 Hood over your head, keep your eyes down
                                      Rem
Tell your friends you're out for a run
          Fa
You'll be flushed when you return
Sib
 Take the road less traveled by
Solm                            Mib
 Tell yourself you can always stop
                                  Rem
What started in beautiful rooms
          Fa
Ends with meetings in parking lots

Rem                            Mib
 And that's the thing about illicit affairs
    Fa
And clandestine meetings and longing stares
     Sib                 Mib
It's born from just one single glance
       Fa
But it dies and it dies and it dies
   Sib
A million little times

Sib
 Leave the perfume on the shelf
Solm                             Mib
 That you picked out just for him
                                 Rem
So you leave no trace behind
         Fa
Like you don't even exist
Sib
 Take the words for what they are
Solm                       Mib
 A dwindling, mercurial high
                           Rem
A drug that only worked
    Fa
The first few hundred times

Sib                            Mib
 And that's the thing about illicit affairs
    Fa
And clandestine meetings and stolen stares
     Sib                   Mib
They show their truth one single time
         Fa
But they lie and they lie and they lie
   Sib
A million little times

And you wanna scream
Sib
 Don't call me "kid," don't call me "baby"
Solm
 Look at this godforsaken mess that you made me
Mib                                                 Fa
You showed me colors you know I can't see with anyone else
```

```
Sib
 Don't call me "kid," don't call me "baby"
Solm
 Look at this idiotic fool that you made me
Mib                                                    Fa
You taught me a secret language I can't speak with anyone else
        Solm    Fa    Mib
And you know damn well
                 Fa      Sib
For you, I would ruin myself
   Sib
A million little times
```
