Taylor Swift - Long live

```
Sol   Do   Mim Re Do9

                    Sol                          Do9
I say remember this moment in the back of my mind
                             Mim
The time we stood with our shaking hands
     Re                      Do9
The crowds in stands went wild
                           Sol
We were the kings and the queens
                       Do9
And they read off our names
                               Mim
The night you danced like you knew our lives
       Re              Do9
Would never be the same
                            Mim                      Do9
You held your head like a hero on a history book page
                      Mim   Re                       Do9
It was the end of a decade but the start of an age

      Sol                          Do9
Long live the walls we crashed through
                         Mim                        Re
How the kingdom lights shined just for me and you
                         Sol                        Do9
I was screaming, "long live all the magic we made"
                            Mim
And bring on all the pretenders
     Do9               Sol
One day, we will be remembered

                         Sol                               Do9
I said remember this feeling, I passed the pictures around
                            Mim                 Re
Of all the years that we stood there on the sidelines
             Do9
Wishing for right now
                            Sol                                                  Do9
We are the kings and the queens, you traded your baseball cap for a crown
                         Mim             Re                     Do9
When they gave us our trophies and we held them up for our town
                      Mim                                    Do9
And the cynics were outraged, screaming, "this is absurd!"
                         Mim
'Cause for a moment a band of thieves
   Re                       Do9
In ripped up jeans got to rule the world

      Sol                          Do9
Long live the walls we crashed through
                         Mim                        Re
How the kingdom lights shined just for me and you
                         Sol                        Do9
I was screaming, "long live all the magic we made"
                            Mim                 Re
And bring on all the pretenders, I'm not afraid
      Sol                          Do9
Long live all the mountains we moved
                        Mim
I had the time of my life
                         Re
Fighting dragons with you
                         Sol                      Do9
I was screaming, "long live that look on your face"
```

```
                            Mim
And bring on all the pretenders
     Do                   Sol
One day, we will be remembered

Do9        Mim
Hold on to spinning around
    Do9 Mim
Confetti falls to the ground
          Do9
May these memories break our fall

                 Sol
Can you take a moment?
            Do9
Promise me this:
                            Mim
That you'll stand by me forever
         Re                             Do9
But if, God forbid, fate should step in
                       Sol
And force us into a goodbye
                           Do9
If you have children someday
                           Mim    Re
When they point to the pictures
                      Do9
Please tell them my name
                   Do9
Tell them how the crowds went wild
                Re
Tell them how I hope they shine

      Sol                          Do9
Long live the walls we crashed through
                       Mim        Re
I had the time of my life with you
            Sol                           Do9
Long, long live the walls we crashed through
                          Mim                          Re
How the kingdom lights shined just for me and you
                          Sol                         Do9
I was screaming, "long live all the magic we made"
                            Mim                Re
And bring on all the pretenders, I'm not afraid
              Sol                             Do9
Singing long live all the mountains we moved
                       Mim
I had the time of my life
                        Re
Fighting dragons with you
            Sol                        Do9
Long, long live that look on your face
                            Mim
And bring on all the pretenders
     Do9    N.C.
One day ..... we will be remembered
```
