Taylor Swift - Seven

```
Si             Fa#m          Mi
Please picture me in the trees
           Si
I hit my peak at seven
Si             Fa#m           Mi
Feet in the swing over the creek
            Si
I was too scared to jump in
    Si        Fa#m           Mi
But I, I was high in the sky
             Si             Si    Fa#m
With Pennsylvania under me
            Mi                  Si
Are there still beautiful things?

Fa#m
  Sweet tea in the summer
Mi
Cross your heart won't tell no other
La                                   Si
  And though I can't recall your face

I still got love for you
Si
 Your braids like a pattern
Fa#m
Love you to the moon and to Saturn
Mi
  Passed down like folk songs
Si                          Fa#m Mi   Si   Fa#m Mi   La   Si
  The love lasts so long, oh

Do#m                           Mi
  And I've been meaning to tell you
                       Si
I think your house is haunted
                     Mi                      Do#m
Your dad is always mad and that must be why
                               Mi
And I think you should come live with me
                  Si
And we could be pirates
                          Mi
Then you won't have to cry
                 Do#m
Or hide in the closet
                  Mi
And just like a folk song
                   Si       Mi
Our love will be passed on

Si             Fa#m          Mi
Please picture me in the weeds
           Si              Si
Before I learned civility
         Fa#m           Mi            Si
I used to scream ferociously any time I wanted
Si  Fa#m Mi   Si
 I,    I

Si
 Sweet tea in the summer
Fa#m
Cross my heart won't tell no other
```

```
Mi
  And though I can't recall your face
Si
  I still got love for you
Fa#m
  Pack your dolls and a sweater
Mi
  We'll move to India forever
La
  Passed down like folk songs
Si                  Do#m    Mi  Si  Mi
  Our love lasts so long

Do#m Mi  Si  Mi x4
```
