U2 – Christmas baby please come home

```
Lab    Dom      Reb    Mib

Lab              Dom                          Reb    Mib
It's Christmas,  Baby please come home
Lab                      Dom
The snow's coming down, I'm watching it fall
Reb                      Mib
Lot's of people around, baby please come home
Lab                        Dom
The church bells in town, they're ringin' a song
Reb                   Mib
What a happy sound, baby please come home
Lab                           Lab Solm Fam
They're singing deck the halls,  but it's not like Christmas at all
Reb                               Mib
I remember when you were here,  and all the fun we had last year
Lab                           Dom
Pretty lights on the trees, I'm watchin' 'em shine
Reb                           Mib
You should be here with me, baby please come home
Lab  Dom  Reb  Mib
Lab                           Lab Solm Fam
They're singing deck the halls,   but it's not like Christmas at all
Reb                                Mib
I remember when you were here,  and all the fun we had last year
Lab                    Dom
If there was a way,  I'd hold back these tears
Reb                      Mib
But it's Christmas day, baby please come home

Lab    Dom
Reb                      Mib
Baby please come home, baby please come home
Lab      Dom
a sfumare
```
