U2 - Mothers of the disappeared

```
La2 La La2 La La4
La2 La La2 La La4 Mi  Re La La2 La La2

La             La2
Midnight, our sons and daughters
La                 La2
were cut down and taken from us
           Mi          Re                 La       La2
Hear their heartbeat      We hear their heartbeat
La              La2
In the wind we hear their laughter
La              La2
In the rain we see their tears
           Mi          Re                La        La2
Hear their heartbeat     we hear their heartbeat
Re        La         Re        La
Whooo... uuuhhh... Whooo... uuuhhh …
La La2 La La4 Mi  Re La
La           La2
Night hangs like a prisoner
La              La2
Stretched over black and blue
           Mi           Re                 La         La2
Hear their heartbeats,    We hear their heartbeats
La                La2
In the trees our sons stand naked
La                     La2
Through the walls our daughters cry
          Mi       Re          La       La2
See their tears       in the rainfall
Re        La         Re        La
Re        La         Re        La
La La2 La La4 Mi  Re La
La La2 La La4
