U2 - So cruel

```
La La La4 2v

La                    La4
We crossed the line
La                    La4
Who pushed who over?
La                          La4
It doesn't matter to you      it
La              La4
matters to me
La               La4
We're cut adrift
La                 La4
But still floating
La
I'm only hanging on
                  Mi
To watch you go down...my love
| La | La La4 |
La                            La4
I disappeared in you
La                            La4
You disappeared from me
La                                    La4
I gave you everything you ever wanted
          La                          La4
It wasn't what you wanted
La                                    La4
The men who love you, you hate the most
La                                    La4
They pass through you like a ghost
La                                  La4            Mi
They look for you but your spirit is in the air
               La       La4
Baby...you're nowhere
La         La4
Oh_______love
La           Re           Mi       La
You say in love there are no rules
  Re  Mi      La        Mi
Oh......love  Sweetheart
          La     La4
You're so cruel

La La La4

La                            La4
Desparation is a tender trap
La                            La4
It gets you every time
La                            La4
You put your lips to her lips
   La                         La4
To stop the lie
La                                      La4
Her skin is pale like God's only dove
La                                      La4
Screams like an angel for your love
La                                      Mi
Then she makes you watch her from above
                           La            La4
And you need her like a drug
La                            La4
Oh.........................love

La          Re          Mi      La
You say in love there are no rules

You're so cruel
Fa#m
She wears my love
       Re
Like a see-through dress
La
Her lips say one thing
    Mi
Her movements something else
   Do#m
Oh love
Love
Like a screaming flower
            La            La4
Dying every hour
| La | La La4 |
La                           La4
And you don't know if it's fear or desire
La                                   La4
Danger the drug that takes you higher?
La
Head of heaven
      La4      La          La4
Fingers in the mire
La                                              La4
Her heart is racing... you can't keep up
La                                              La4
The night is bleeding like a cut
La                                  La4
Between the horses of love and lust
       Mi             La          La4
We are trampled underfoot
La                           La4
Oh.........................love
La          Re          Mi      La
You say in love there are no rules
  Re  Mi     La       Mi
Oh......love  Sweetheart
          La         La4
You're so cruel
La                           La4
Oh.........................love
             Re      Mi      La
To stay with you I'd be a fool
   Re      Do#m       La   Mi
oh....hah           hah   Sweetheart
          La
You're so cruel.
