The Weeknd - Angel

```
Rem              Fa
Angel, woah oh oh oh
                                          Lam
Knew you were special from the moment I saw you
I saw you, yeah
        Rem             Fa
I said angel, oh oh oh oh
                                  Lam
I feel you're closer every time
I call you, I call you

                      Rem                      Fa
Cause all I see are wings, I can see your wings
                                 Lam
But I know what I am and the life I live
               Sol
yeah, the life I live
                   Rem                           Fa
And even though I sin, maybe we are born to live
                                        Lam
But I know time will tell if we're meant for this
                   Sol
yeah if we're meant for this

              Rem
And if we're not,
                           Fa
I hope you find somebody
                           Lam
I hope you find somebody,
                           Sol
I hope you find somebody
                                   Rem
I hope you find somebody to love,
                Fa
somebody to love
                Lam
Somebody to love,
                Lam
yeah, yeah, yeah

      Rem             Fa
Said angel, woah oh oh oh

You'll probably never take me back
         Lam
and I know this, yeah I know this, aw man
        Rem               Fa
I said angel, woah oh oh oh
                                        Lam
I'm so desensitised to feeling these emotions
yeah, no emotions baby

                      Rem                      Fa
Cause all I see are wings, I can see your wings
                                 Lam
But I know what I am and the life I live, yeah,
         Sol
the life I live
                   Rem                           Fa
And even though I sin, maybe we are born to live
                                        Lam
But I know time will tell if we're meant for this
                  Sol
yeah if we're meant for this

And if we're not,

Rem                         Lam
And even though we live inside
                        Mim
a dangerously empty life
                                 Sim
You always seem to bring the light
                                    Rem
you always seem to bring the light
                             Lam                          Mim
And even though we live inside a dangerously empty life
                                Sim                                    Sim
You always seem to bring me light, you always seem to bring me light

Rem                       Fa
I hope you find somebody
                          Lam
I hope you find somebody,
                          Sol
I hope you find somebody
                                  Rem
I hope you find somebody to love,
               Fa
somebody to love
               Lam
Somebody to love,
               Lam
yeah, yeah, yeah
Rem                        Fa
I hope you find somebody
                          Lam
I hope you find somebody,
                          Sol

                                  Rem
I hope you find somebody to love,
               Fa
somebody to love
               Lam
Somebody to love,
               Lam
yeah, yeah, yeah
       Rem                                  Fa
Ooh somebody baby, I hope you find somebody
                          Lam                         Sol
I hope you find somebody, I hope you find somebody baby
             Rem                 Fa
Somebody to love, somebody to love
             Lam                 Sol
