The Weeknd - I feel it coming

```
                          Mim
Tell me what you really like
                      Lam
Baby I can take my time
                         Fa
We don't ever have to fight
                          Do
Just take it step-by-step
                           Mim
I can see it in your eyes
                      Lam
Cause they never tell me lies
                         Fa
I can feel that body shake
                          Do
And the heat between your legs

                    Lam7
You've been scared of love
               Mim7
And what it did to you
                     Rem7
You don't have to run
                    Do
I know what you've been through
                    Lam
Just a simple touch
               Mim7
And it can set you free
                     Rem7
We don't have to rush
                    Do
When you're alone with me

              Mim7              Lam7
I feel it coming I feel it coming babe
              Fa               Do
I feel it coming I feel it coming babe

              Mim7
I feel it coming
              Lam7
I feel it coming babe
              Fa
I feel it coming
              Do
I feel it coming babe

                          Mim
You are not the single type
                          Lam
So baby this the perfect time
                          Fa
I'm just trying to get you high
                         Do
And faded off this touch
                          Mim
You don't need a lonely night
                          Lam
So baby I can make it right
                          Fa
You just got to let me try
                         Do
To give you what you want
```

```
                  Lam7
You've been scared of love
               Mim7
And what it did to you
                   Rem7
You don't have to run
                  Do
I know what you've been through
                  Lam
Just a simple touch
               Mim7
And it can set you free
                   Rem7
We don't have to rush
                  Do
When you're alone with me

              Mim7             Lam7
I feel it coming I feel it coming babe
              Fa               Do
I feel it coming I feel it coming babe
              Mim7             Lam7
I feel it coming I feel it coming babe
              Fa               Do
I feel it coming I feel it coming babe
              Mim7             Lam7
I feel it coming I feel it coming babe
              Fa               Do
I feel it coming I feel it coming babe
              Mim7             Lam7
I feel it coming I feel it coming babe
              Fa               Do
I feel it coming I feel it coming babe

                  Lam7
You've been scared of love
               Mim7
And what it did to you
                   Rem7
You don't have to run
                  Do
I know what you've been through
                  Lam
Just a simple touch
               Mim7
And it can set you free
                   Rem7
We don't have to rush
                  Do
When you're alone with me
              Mim7             Lam7
I feel it coming I feel it coming babe
              Fa               Do
I feel it coming I feel it coming babe
              Mim7             Lam7
I feel it coming I feel it coming babe
              Fa               Do
I feel it coming I feel it coming babe
              Mim7             Lam7
I feel it coming I feel it coming babe
              Fa               Do
I feel it coming I feel it coming babe
              Mim7             Lam7
I feel it coming I feel it coming babe
              Fa               Do
I feel it coming I feel it coming babe
```
