The Weeknd - Starboy ft Daft Punk

```
Lam                                    Sol
  I'm tryna put you in the worst mood, ah
                                      Fa
P1 cleaner than your church shoes, ah
                                     Sol
Milli point two just to hurt you, ah
                                    Lam
All red Lamb' just to tease you, ah
                                    Sol
None of these toys on lease too, ah
                                       Fa
Made your whole year in a week too, yah
                                   Sol
Main bitch out your league too, ah
                                      Lam
Side bitch out of your league too, ah

                                    Sol
House so empty, need a centerpiece
                                 Fa
20 racks a table cut from ebony
                               Sol
Cut that ivory into skinny pieces
                                                    Lam
Then she clean it with her face man I love my baby
                                     Sol
You talking money, need a hearing aid
                                       Fa
You talking bout me, I don't see the shade
                                  Sol
Switch up my style, I take any lane
                                  Lam
I switch up my cup, I kill any pain

Sol                    Fa     Sol
   Look what you've done
                       Lam      Sol
I'm a motherfuckin' starboy
                   Fa     Sol
Look what you've done
                       Lam
I'm a motherfuckin' starboy
                                     Sol
Every day a nigga try to test me, ah
                                    Fa
Every day a nigga try to end me, ah
                                  Sol
Pull off in that Roadster SV, ah
                                      Lam
Pockets overweight, gettin' hefty, ah
                                           Sol
Coming for the king, that's a far cry, ah
                                   Fa
I come alive in the fall time, I
                                    Sol
No competition, I don't really listen
I'm in the blue Mulsanne bumping New Edition

Lam                                    Sol
   House so empty, need a centerpiece
                                 Fa
20 racks a table cut from ebony
                               Sol
Cut that ivory into skinny pieces
                                                    Lam
